Please join the California Department of Toxic Substances Control (DTSC) as we convene a meeting of the Green Ribbon Science Panel (GRSP or Panel), on October 20-21, 2014, in Sacramento, California. The public is invited to attend and address the Panel on agenda items.

BACKGROUND

The GRSP was established by AB 1879 (Feuer, Chapter 559, Statutes of 2008) to act as a resource to the DTSC and the California Environmental Leadership Council. The GRSP will provide scientific and technical advice to DTSC as we strive to build a meaningful, practical, and defensible Safer Consumer Products program. The GRSP also provides advice and recommendations on a variety of other scientific and technical matters related to green chemistry and chemicals policy and implementation strategies.

MEETING PURPOSE

The purpose of this meeting is to provide the GRSP a forum to discuss and advise DTSC on evaluating Product Categories identified in the 3 Year Priority Product Work Plan, which is currently a draft and undergoing public comments. The GRSP will also discuss and advise DTSC on alternative analysis topics as described in the Alternatives Analyses Guidance Synopsis.

MEETING DETAILS

The public is invited to attend in person and provide comments to the GRSP on the agenda items to inform their advice to DTSC. Comments related to the *Draft Priority Product Work Plan* may be submitted through [California Safer Products Information Management System \(CalSAFER\)](#). All other non-agenda related comments on the Safer Consumer Products program may be submitted directly to DTSC at SaferConsumerProducts@dtsc.ca.gov.
